

Excavator Value Proposition (240D LC – 350D LC)

Productivity

Cab:

- Larger cab with increased visibility
- Ergonomically-designed controls (shorter lever with reduced efforts and travel)
- LCD Monitor – multiple languages, maintenance monitoring, diagnostic messages, attachment flow setting, system information
- Air suspension and heated seat option
- 12 volt phone outlet
- Cooler storage in cab
- Hot/Cold beverage compartment
- Additional cup holder
- Easy access to cab clean air filter

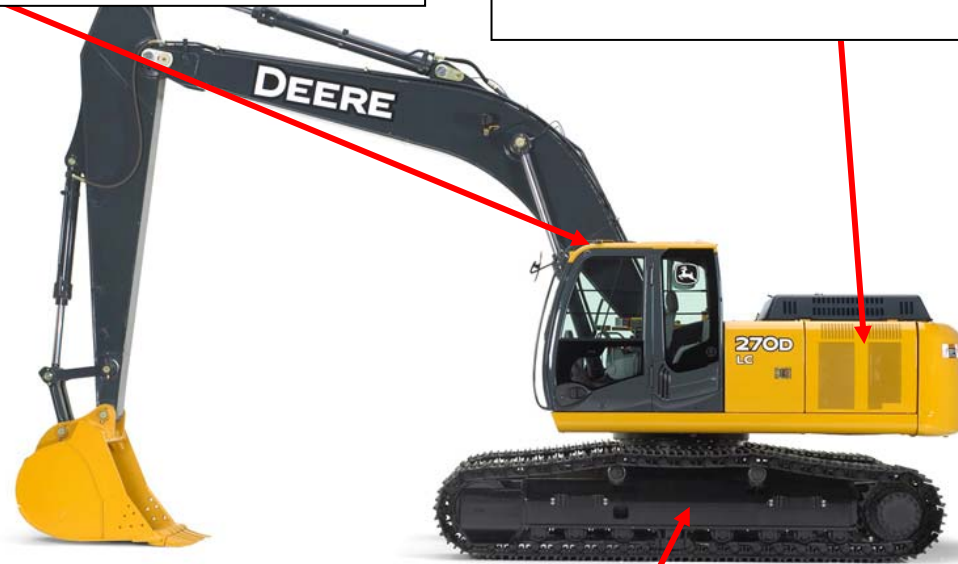

Productivity

Machine Performance:

- Powerwise III engine hydraulic management system for crisp, responsive, and predictable hydraulic power
- Automatic and manual power boost
- Strong arm forces
- Fast cycle times
- Electro/hydraulic cool-on-demand cooling, saves fuel, reduces noise, pre-screens debris, reversing option.

Uptime

- Three bulkheads in the boom for extended durability
- Greasing through bosses vs. pins
- Easy cleaning undercarriage
- Deere buckets designed with shimming adjustments to reduce noise and improve life
- Powdered metal oil impregnated bushings
- Tungsten carbide coating on the end of the arm

Uptime

- “D”-frame side channel for durability
- Sealed and lubricated track chain
- Larger upper and lower rollers on 350D LC

Uptime

- Remote mounted engine oil and fuel filters
- Standard oil sampling valves
- John Deere Power Tech Plus diesel engines meeting Tier III emission guidelines
 - Engines are quiet
 - Engines are more fuel efficient
- Large toolbox for tools and accessories that are needed on the machine

Low Daily Operating Costs

Serviceability:

- 500 hour engine oil change interval
- Sight gages for quick fluid level checks
- 500 hour grease interval
- 5000 hour hydraulic oil change interval
- Machine Information Center for tracking machine performance
